

Beth Israel Medical Center Phillips Ambulatory Care Center New York, NY

The Phillips Ambulatory Care Center was created by converting an existing five story 200,000sq.ft. office complex at One Union Square East into a full ambulatory care facility housing clinical space for a variety of medical disciplines and treatment modalities. Also included are a complete radiological imaging facility with MRI, a radiation therapy facility with two linear accelerators and an ambulatory surgical suite with ORs and recovery areas.
